UCS Design Group are a privately owned company with a manufacturing facility based in Belfast and a Trade Counter Depot in Dublin.

With over 30 years experience in the design, manufacture & distribution of PVCu construction products, we offer high quality tailor made products and solutions to the construction industry.

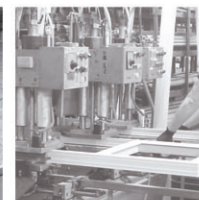

Trade showrooms are available in both our Belfast and Dublin depots for all our trade customers, architects and specialist installers to utilize and review the products and colours available.

"I've brought 3 customers to the showroom when closing a deal. It gave me the edge and helped me close the deals worth over £50k last year. Everyone from pricing to technical staff are always at the end of a phone to help..."

Richard Garvin
Trade Installer

CONSERVATORIES & SUNROOMS

Conservatories

UCS are specialist fabricators of conservatories and sunrooms in PVCu, Aluminium, and timber. Our systems range from domestic conservatories to portal frames for swimming pools and hotels. We offer a full survey, design & manufacturing service and can also deliver direct to site.

Guardian Sunrooms

The Guardian Roof is custom fabricated by UCS to fit every installation, ideal for both conservatory roof replacements and new sunrooms with full building control approval. We use a specially designed patented aluminium frame and a lightweight roof tile that carries a 40 year guarantee.

Loggia & Orangeries

The Loggia range is designed to be an up sell from a standard conservatory. It thermally addresses the three main heat loss areas of a conservatory and completely transforms the aesthetics. This will keep the room cooler in the summer and warmer in the winter, reducing your customers heating bills.

"More for less at UCS"
